THE POLICY

The Salt Lake City School District Board of Education requires that all instructional materials, speakers, special programs, and resource agencies used in any human sexuality presentation or discussion be reviewed and approved by the Salt Lake City School District Human Sexuality Curriculum Committee and approved annually by the board. The district will follow all provisions of state law when teaching any aspect of human sexuality, including the parent/guardian notification and prior written parental consent requirements. Educators must also complete all USBE training requirements specific to human sexuality curriculum and instruction.

The purpose of this policy is to ensure that the district’s human sexuality curriculum and instruction are fully compliant with state law.

The district will set forth its specific processes for implementing this board policy through the accompanying administrative procedures.
