Subject: GRAMMA Request

Good Afternoon,

I have received your records request. Hopefully this email will satisfy the request. If you feel that I haven’t done so, please to get a hold of me and we can discuss the issue.

Request #1

Our district does not have an independent policy regarding the instruction of human sexuality. We use State Board Rule R277-474 as our policy. The link to this rule is below.

Request #4

We use the following text books and materials for our curricula:

At the high school level we use Prentice Hall Health

We also use Web MD occasionally for reference.

At the middles school we use Teen Health Course 2
Most of the materials can be found on the teacher’s website (http://www.wasatch.edu/Page/8236). Included on this website is the permission form that is required for students who participate in the sex education unit.

Our maturation classes are done in partnership with the Wasatch County Health Department. This is organized by our school nurse, but the Health Department provides the presenters. In previous years, those presenters have been physicians.

Request #8
We do not keep any records, minutes, or agendas from our district’s sexuality review committee. The members of the committee obviously change from year to year, but always have the following makeup:

District Curriculum Specialist
Building Administration
Health Teachers
School Nurse
PTA representatives

Please let me know if I can answer any additional questions for you.

James Judd
Secondary Curriculum Director
